

Fall 2019

Date	Speaker	Organization	Title
	Dr. Lorenz Biegler		
09/05/2019	Covestro University Professor, Department of Chemical Engineering	Carnegie Mellon University	Integrated Dynamic Optimization for Process Engineering
	Dr. Margot Vigean		G. Michael Howard Memorial Lecture
09/12/2019	Professor, Department of Chemical Engineering	Bucknell University	“But they did so well on the test!” What’s it take to make thermo and heat transfer stick
	Dr. Brian Grady		
10/10/2019	Douglas and Hilda Bourne Chair of Chemical Engineering, Director of the School of Chemical, Biological, and Materials Engineering	University of Oklahoma	Carbon Nanotube-Polymer Composites: Effect of Nanotubes on Polymer Physics
	Dr. Richard Gross		
10/31/2019	Professor and Constellation Chair, Department of Chemistry and Biology	Rensselaer Polytechnic Institute	The expanding role of enzyme-catalyzed synthesis of polymers, surfactants and peptides
	Dr. Geoffrey M. Geise		
11/21/2019	Assistant Professor, Department of Chemical Engineering	University of Virginia	Structure/property relationships in polymer membranes for water purification and energy applications
